EXPERIENCE

Web Developer & Designer — *Thème*

Feb 2019 - Dec 2021

Thème is a web design and software development startup. As one of its co-founders I had multiple responsibilities and worked/collaborated with multiple organizations.

- Responsible for project management, UI UX design and web development.
- Responsible for testing, prototyping and creating mock ups.
- Established a work system that helped increase the team's output.
- Delivered various web applications to local and foreign clients.

Backend Developer — *Ashraf Com*

Oct 2018 - Jan 2019

Morsal is an E-payment solution that mainly consists of a middleware connected to Electronic Banking Sudan (https://ebs-sd.com/ebs/).

- Responsible for design and development of new features, code maintenance, and fixing bugs
